Core Curriculum
Head and Neck Imaging

Module I  Saturday, March 23, 2019
Module II  Saturday, April 6, 2019

Inselspital Bern | Switzerland
headandneck2019.congress-imk.ch
4th SFCNS Congress

Swiss Federation of Clinical Neuro-Societies

October 23 - 25, 2019
SwissTech Convention Center, EPFL
Lausanne

sfcns2019.congress-imk.ch

Abstract-Deadline 05.05.2019
Dear colleagues

This new two-day event provides participants with an opportunity to gain experience in diagnosing a broad range of pathologies in the speciality of head and neck radiology. It will consist of informative lectures and interactive sessions designed to familiarise delegates with imaging appearance of head and neck disorders. The presentations will include a wide variety of interesting cases, and reporting tips and imaging pitfalls.

Course Goals: At the end of the course participants will
1. have a comprehensive understanding of head and neck radiological anatomy
2. become familiar with imaging appearances of ENT and skull base disorders
3. develop a systematic approach to interpretation of head and neck scans and
4. improve confidence in reporting head and neck scans.

The course is designed for radiologists and radiology trainees who require further proficiency in head and neck radiology; ENT and oral surgeons as well as neurosurgeons who strive to enhance their radiological skills are also welcome.

Franca Wagner, MD, Bern
Lead Core Curriculum
Head and Neck Imaging

Prof. Jan Gralla, MD, Bern
President
Swiss Society of Neuroradiology SSNR
Target Audience

- **General radiologists** and **neuroradiologists** seeking to improve their understanding and skills in head and neck imaging
- **Radiologists** and **neuroradiologists** with a special interest in head and neck imaging who wish to increase their knowledge of imaging and treatment of head and neck pathology
- **Dentists** with an interest in pathology and imaging of the jaws and adjacent soft tissues
- Physicians working in **Oral and Maxilla-Facial Surgery or Opthalmology or Neurosurgery or Neurology**
- **Non-radiologists**, including ENT physicians, head and neck surgeons, medical and radiation oncologists, and general surgeons, who are interested in head and neck cancer therapy and diagnosis
- **Allied health professionals**, including physician assistants, nurses, nurse practitioners and radiology technologists with an interest in head and neck cancer and imaging
- **Physicians-in-training**, residents and fellows pursuing careers in radiology, otolaryngology, and treatment of head and neck cancer

Educational Objectives

Attendees should, at the completion of this meeting, be able to:

- Identify the normal anatomy of head and neck (paranasal sinus, orbits, temporal bone, skull base, supra- and infrahyoid neck spaces).
- Review the anatomy of cranial nerves and clinical presentation of various pathologies affecting cranial nerves.
- Identify the imaging features and clinical significance of perineural tumor spread.
- Describe the common infectious and inflammatory processes in head and neck imaging.
- Describe the common malign and benign tumor entities in head and neck imaging.
- Recognize specials in pediatric head and neck imaging.
- Determine the best imaging technique for staging of head and neck cancer.
- Describe the lymphatic drainage and patterns of head and neck metastases.

Main Topics and Sessions

- Temporal Bone
- Skull Base
- Orbit
- Nose and Paranasal Sinuses
- Supra- and Infrahyoid Neck Part
- Larynx and Hypopharynx
- Pediatrics
- Interactive Quiz Session
GENERAL INFORMATION

**Date**
- Saturday, March 23, 2019 (Module I)
- Saturday, April 6, 2019 (Module II)

**Congress Venue**
University Hospital Bern – Inselspital
Pathologisches Institut
Hörsaal 7, Auditorium Langhans
Entry 43A, Murtenstrasse 31
3010 Bern, www.insel.ch

**Scientific Lead**
Franca Wagner, MD
Spitälfachärztin I
Universitätsinstitut für Diagnostische und Interventionelle Neuroradiologie
Inselspital Bern
Freiburgstrasse 10
3010 Bern

**Language**
The official language is English

**Organizing Society**
Swiss Society of Neuroradiology SSNR:
www.swissneuroradiology.ch

**Registration**
Please register online on the congress website:
headandneck2019.congress-imk.ch

**Registration Fees (in CHF)**
